The ultimate collaboration experience in just one click
Love meeting
BARCO

When people meet, magic happens, and nothing should come in between. No distance, no walls, no cables and certainly no technology. That’s where ClickShare comes in. It’s time to love meeting again.

Meaningful meeting experiences with ClickShare

ClickShare, the wireless meeting room system, seamlessly connects your laptop to the screen, audio and video devices in any meeting room, so you can focus on connecting to your peers.

Walk into the room with your laptop, plug ClickShare in and click. Your room system instantly wakes up. ClickShare automatically connects your laptop to the equipment in the room. No cables, no mess, no time wasted.

Start your meeting and attendees joining remotely feel as present as the people in the meeting room. Employees are engaged and productive while you enjoy efficiency, excellent ROI and peace of mind.

You can run meetings from your device in perfect sync with your videoconferencing platform of choice and room solutions from global partners and popular brands.

ClickShare comes in three ranges: wireless conferencing solutions for effortless collaboration in hybrid meetings, video bars for wireless conferencing for sharp views and crystal-clear audio in hybrid meetings, and wireless presentation solutions for interactive collaboration in face-to-face meetings.

Empowers you

When everyone is clearly heard and seen, whether they work from home or in the office, authentic interactions and productive conversations are guaranteed. ClickShare facilitates unparalleled collaboration regardless of location.

Inclusive collaboration, sharp views and crystal-clear audio

Make sure everyone feels truly seen and heard, and enjoys equal opportunities to contribute in meetings, no matter the location. Enable easy, inclusive communication with ClickShare´s advanced audio and video capabilities and dual screen support for seeing remote participants and content at the same time.

Interactive meetings with engaging collaboration

Share content or mirror your screen with Airplay, Miracast or GoogleCast. Add a touchscreen to your room and enable interaction with the content or stream top-quality 4K videos with an add-on wired connection.

Impressive results and excellent ROI

ClickShare is a hassle-free wireless collaboration system, easily manageable from your (home) office via XMS Cloud, our management platform. Its ease of installation and use, remote diagnostics and analytics readily available will ensure efficiency, ROI and the credit you deserve.

Built around you

Flexible workplaces require flexible solutions. ClickShare makes this possible. Say goodbye to rigid setups or limited functionalities and hello to effortless collaboration. In any type of room, with any setup or equipment, even in fixed conference rooms.

Consistent meeting experiences

ClickShare creates the same engaging and immersive experience in any room setting, be it the large boardroom, an everyday meeting room or a huddle space.

Unparalleled flexibility

Switch between a fixed room setup and other technology solutions by simply connecting with the ClickShare Button or App. Once disconnected, the system switches back to default mode. Turn any room into a ClickShare room with our all-in-one video bar with wireless conferencing capabilities built in.

Native interoperability

ClickShare flawlessly works with all major videoconferencing platforms and meeting room equipment so you can use your existing infrastructure to the maximum.

Bring Your Own Device (BYOD)

Whether you're an employee or a guest, you can share content from your own device, be it a laptop, tablet or smartphone with the ClickShare Button, Desktop App or Mobile App.

Barco allies with other top players in their fields of expertise to build the best solutions available

By combining strengths, we can offer one premium solution to our customers' and create a win-win situation for all parties. You can discover all our partners here.

Scan and discover all our partners

Works seamlessly with all videoconferencing platforms, including:

Makes your life easy

With ClickShare, running high-quality meetings from your laptop is quick, easy and effective. No hassle with control panels, passwords or cables, only effective collaboration and meaningful connection.

Simple and wireless
No unruly cables. No more interventions and above all, no hassle.

Connect in 7 seconds
Open your laptop and connect via the Button or App. Your room system starts instantly and your meeting is running in a blink of an eye.

Zero learning curve
ClickShare is self-explanatory and intuitive. No training or manual required.

Inspire and inform
Display your meeting rooms' availability or internal communication updates with digital signage.

Plug in and go with the ClickShare Button

With the ClickShare Button you start your wireless video meeting or share content on the meeting room display. Plug the USB-C device into your laptop and within seconds, you are automatically connected to the meeting room equipment. Even guests can join this way!

Or enjoy the full ClickShare experience and get access to advanced benefits with the free Desktop or Mobile Apps.

Make your meetings smart with the ClickShare App

The ClickShare App brings an intuitive user experience to the meeting room. Start your wireless video meeting or share content on the room display within seconds from your laptop or phone.

With the ClickShare App, you benefit from the Smart Meeting Flows which guide you through the meeting, from checking room availability, to an automated start or advanced sharing options.

Room availability
Walk into the meeting room, you immediately see if the room is available or not.

PresentSense
Automatically connect to the meeting room with the App or plug in a Button.

HostFlow
Kick off your meeting, ClickShare guides you as a host or participant.

Advanced sharing
Share the full screen or application window, while keeping your laptop screen private for note-taking.

ConferenceView
Share your presentation while keeping the remote participants' video on screen.

Has you covered

Security, stability, sustainability, and ease of use are built-in, so you can enjoy peace of mind in your new hybrid work environment. How is that for a solid investment?

Always up to date

Free updates ensure your units stay powerful, performant and secure and you enjoy the best-in-class experience with the new features.

Carefree with SmartCare

Get the free Smartcare service package with 5 years of extended hardware coverage, available upon registering your ClickShare devices.

Safety, privacy and confidentiality

ClickShare has multiple configurable security and encryption levels and our processes are in the ISO 27001 certification scope. Frequent firmware updates keep your data fully protected.

Built-in sustainability

ClickShare devices are designed with a strong focus on energy efficiency, use recyclable materials and biodegradable packaging. All our products have the Barco ECO label A++ or are carbon-neutral.

Easy installation, reduced complexity, lower TCO

ClickShare has consolidated its collaboration, audio and video functionalities into one, easy-to-install powerful unit, the all-in-one video bar. Enjoy minimized deployment complexities, fewer points of failure, sped up installation and lower Total Cost of Ownership.

Leading the way towards a green future with our carbon-neutral devices

The ClickShare CX-50 2nd gen and the ClickShare Video Bars have been awarded the CO2 Neutral label by leading climate advisory organization CO2logic. They are some of the first carbon-neutral wireless conferencing solutions in the market and paves the way for a more sustainable future in the workplace.

Love meeting

Make the most of your fleet

XMS Cloud is the cloud-based solution for IT Managers, enabling quick and easy monitoring, managing, and optimizing ClickShare devices, be that wireless conferencing and wireless presentation systems or the all-in-one video bars. It guarantees complete device control, proactive intervention and maximum uptime in a fully secure manner, while ensuring workers enjoy seamless and engaging meetings.

Integrated insights for data-driven decisions

Get insights into device status and usage as well as meeting behavior data to monitor and improve meeting experiences.

Proactive intervention for maximized uptime

IT admins receive notifications of any tech issue or overdue actions that affect their devices' health, so they can intervene immediately.

Full remote device control

Ensure device configuration, scheduled updates, digital signage, user management, functionality personalization and app integrations at any time, anywhere.

Intuitive and easy to use

A user-friendly interface enables key system health stats to be available at a glance, enabling quick and effective monitoring.

Tailored to your needs

Explore the marketplace functionality and add tools suited to your needs to improve meeting experiences.

ClickShare overview

ClickShare comes in three ranges: wireless conferencing solutions for effortless collaboration in hybrid meetings, video bars for wireless conferencing for sharp views and crystal-clear audio in hybrid meetings, and wireless presentation solutions for interactive collaboration in face-to-face meetings.

What is ClickShare Conference, our wireless conferencing solution?

ClickShare Conference enables seamless collaboration in hybrid conference rooms. Join a video conference from your own device, whether you are in a huddle space, a meeting room or a boardroom. ClickShare Conference works seamlessly with your videoconferencing software, AV equipment and laptop, ensuring a productive and enjoyable meeting experience.

What are the ClickShare Video Bars, our all-in-one video bars for wireless conferencing?

The ClickShare video bars enable engaging, effortless wireless conferencing with any videoconferencing platform. They deliver sharp views and crystal-clear audio, enabling easy, natural communication between remote and onsite participants in hybrid meetings, ensuring all participants feel truly heard and seen.

What is ClickShare Present, our wireless presentation solution?

ClickShare Present enables you to connect any device - laptop, mobile or tablet - and effortlessly share content on the main meeting room screen. A range of interactive features help make your meetings collaborative and interactive. No cables and no hassle for employees or visitors.
